

Harsh Parmar

IT Student | Data Analyst | Aspiring DevOps Engineer

☎ +91 7990124991 ✉ hpparmar8899@gmail.com 🌐 Portfolio 🌐 LinkedIn 🌐 GitHub

SUMMARY

Driven IT undergraduate with hands-on exposure to data analytics, business intelligence, and software development. Strong foundation in Python, SQL, Power BI, with experience building dashboards and analytical solutions that support informed decision-making. Comfortable working in collaborative environments and adapting to new technologies, with a growing interest in cloud platforms and DevOps practices to deliver efficient and scalable systems.

WORK EXPERIENCE

Data Analyst Intern

07/2025 – 07/2025

CSR Box

- Built interactive reports using Power BI and SAP Analytics Cloud for stakeholder insights
- Ensured data accuracy through cleaning, validation, and structured data modeling

Software Developer Engineer Intern

04/2025 – 05/2025

Bluestock Fintech

- Developed a web-based IPO dashboard using React.js to visualize IPO-related data for internal company use
- Followed best practices in frontend development and version control using Git

SKILLS

Technical Skills

Python, SAP Analytics Cloud, Power BI, Tableau, Excel, SQL, HTML, Tailwind CSS, React JS, Javascript, Docker, CI/CD Pipeline, Cloud Computing

Soft Skills

Teamwork, Communication Skills, Problem Solving, Decision Making, Project Management, Strategic Planning, Leadership, Time Management

EDUCATION

Bachelor of Engineering (Information Technology)

2022 – 2026

Sardar Vallabhbhai Patel Institute of Technology, Anand

HSC (12th), GSEB - 84.45 PR

2022

Shree B.M. Commerce Highschool, Bhavnagar

SSC (10th), GSEB - 98.08 PR

2020

Shree B.M. Commerce Highschool, Bhavnagar

PROJECTS

Stock Prediction Using Python

- Developed a Python-based intraday stock prediction model using historical and real-time market data

Data Analysis Dashboard — SAP Analytics Cloud & Power BI

- Built an interactive dashboard analyzing sales, profit, customer segments, and regional performance
- Created a dashboard to analyze air quality metrics across locations and time periods

React.js Portfolio Website

- Developed a responsive portfolio website using React.js to showcase projects and skills

CERTIFICATIONS

Data Analytics - SAP Analytics Cloud (SAP), SAP Technology Consultant Certification, Python (coursera - Meta & IBM), Data Analysis and Visualization (coursera - IBM)

INTERESTS

Data & Analytics, DevOps, Stock Market & Finance, Project Management, Video Editing
