IT Student | Certified SAP Analytics Cloud Data Analyst | Aspiring DevOps Engineer

---

## SUMMARY

Versatile IT Engineer combining full-stack skills in Python and React.js with specialized expertise in business intelligence. I create interactive dashboards using Power BI and am a certified SAP Analytics Cloud Data Analyst. Currently, I am expanding my knowledge in cloud technologies to build stronger foundations for both my development and analytics work.

---

## SKILLS

**Technical Skills:** Python, React.js, HTML, CSS, JavaScript, Data Analytics, SAP Analytics Cloud, Power BI, Tableau

**Soft Skills:** Teamwork, Problem Solving, Decision Making, Project Management, Strategic Planning, Leadership

**Tools & Technologies:** VS Code, Figma, Canva

---

## WORK EXPERIENCE

### Data Analyst Intern

#### CSR Box | 15 Days Summer Internship

- Built clear, interactive dashboards in Tableau.
- Used Tableau to turn raw numbers into visual charts that tell a story about the data.

### Software Developer Engineer Intern

#### Bluestock Fintech | April 2025 – May 2025

- Developed backend services using Python to improve platform reliability.
- Built reusable front-end components using React.js.
- Participated in Agile ceremonies and contributed to SDLC activities.
- Debugged and optimized workflows to enhance development efficiency.

## PROJECTS

### Stock Prediction Using Python

- Built a machine learning model using Python, Pandas, NumPy, and Scikit-learn.
- Implemented Linear Regression/Random Forest for predicting stock price trends.
- Cleaned and preprocessed financial datasets to improve model accuracy.

### Data Analysis Dashboard — SAP Analytics Cloud & Power BI

- Developed KPI dashboards with data models and analytical stories.
- Extracted insights for business decision-making.

### React.js Portfolio Website

- Developed a responsive portfolio website using React.js.
  - Built modular, reusable components and improved UI performance.
- 

## CERTIFICATIONS

- Data Analytics - SAP Analytics Cloud ( SAP )
  - SAP Technology Consultant Certification
  - Python ( coursera - Meta & IBM )
  - Data Analysis and Visualization ( coursera - IBM )
- 

## EDUCATION

### **Bachelor of Engineering (Information Technology)**

Sardar Vallabhbhai Patel Institute of Technology, Anand | 2022–2026

### **HSC (12th), GSEB - 84.45 PR**

Shree B.M. Commerce Highschool, Bhavnagar | 2022

### **SSC (10th), GSEB - 98.08 PR**

Shree B.M. Commerce Highschool, Bhavnagar | 2020
